**COORDINATED
ENTRY SYSTEM
OF PASCO
COUNTY**

*Working Together to End
Homelessness in Pasco County*

What is Coordinated Entry?

Coordinated Entry is a HUD (Housing and Urban Development) process, organized in partnership with the Pasco County Continuum of Care, to ensure that all people experiencing a housing crisis have fair and equal access and are quickly identified, assessed, referred, and connected to housing assistance based on their strengths and needs. Through our Coordinated Entry System, individuals and families are quickly assessed and prioritized for housing. Households accessing Coordinated Entry are not guaranteed to receive a referral to housing and/or supportive services.

What is RRH/PSH?

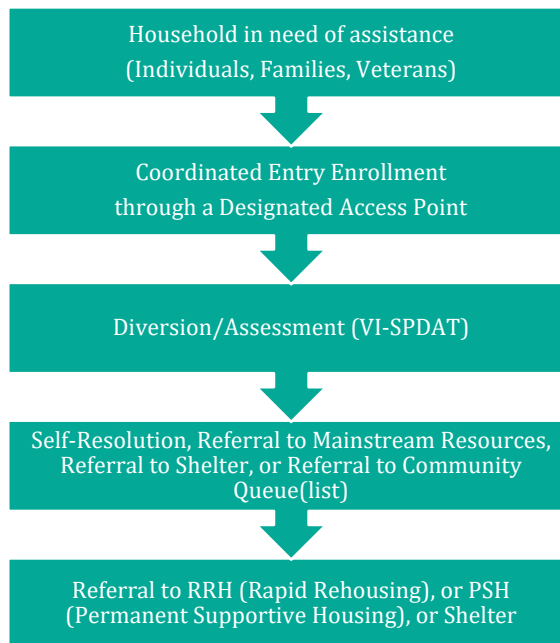

RRH – Rapid Re-housing – Rapid re-housing provides short-term rental and move-in assistance and services.

PSH – Permanent Supportive Housing – Provides move-in assistance, housing and supportive services to individuals and/or families who are chronically homeless.

Chronic Homelessness is defined as either: a homeless individual or member of household with a disabling condition who has been continuously homeless for a year or more, **or** an individual or member of household with a disabling condition who has had at least four episodes of homelessness in the past three years totaling 12 months.

The Process:

When an individual or family calls or arrives at one of our Designated Access Points, we assess their current living situation and look for alternatives to entering a shelter; this process is called **Diversions**. If diversion is not possible, a VI-SPDAT (Vulnerability Index Service Prioritization Decision Assistance Tool) Assessment is completed. This assessment tool highlights areas of need and helps to gain a better understanding of the support needed to ensure stable housing.

Frequently Asked Questions

An individual or family has been assessed. What's next?

Once an individual or family has been assessed, they are strongly encouraged to continue to seek other housing options.

The individual or family will need to update their housing status and contact information at least every 90 days to remain active in Coordinated Entry.

Where am I on the Coordinated Entry List?

Coordinated entry is not a waitlist for housing. We do not know how long it will take to match individuals and households with the right housing program. Housing referrals are made based on availability and individual needs.

Who do I contact if my information has changed?

Individuals and households should contact the agency that assessed them to update any information that has changed. If one does not remember where they were assessed, they can then call or visit any designated access point to update their information.

Will my information be kept private?

Yes. Personal information about people who are assessed and referred will not be shared with the public.
